

Technical Specifications

GC CONTROL RANGE**1 - DESCRIPTION****i**

Accessory range for **opening devices** of manusa automatic doors.

The accessories have a streamlined design that can be integrated in any architectural setting.

Both **surface** and **flush** mounting.

The push-buttons come in white and silver **finishes**.

The elbow push-buttons have keys with a big surface area to make activating them easier. They are manufactured in insulating thermoplastic material, and therefore do not have to be earthed.

The key can be mounted outdoors thanks to its high protection level.

2 - RANGE COMPONENTS

The **manusa** GC wired control device range is made up of:

- **GC-K external key-switch** (flush or surface mounted)

- **GC-P Push-button** (flush or surface mounted)

- **GRF-PC Elbow push-button** (flush or surface mounted)
